PROFESSIONAL SUMMARY

Instructional Design and Learning & Development professional with 7+ years of experience across instructional design, eLearning development, curriculum development, learning quality assurance, capability development, and learning operations. Experienced in translating complex research outputs and subject-matter expert content into structured, learner-centered learning experiences across self-paced, live online, and face-to-face formats.

Combines hands-on instructional design expertise with experience leading remote teams, managing learning production workflows, developing quality standards, and improving operational processes. Skilled in learning and content analysis, digital learning development, interactive learning design, stakeholder collaboration, project management, and team capability building. Achieved approximately 30% faster course production timelines through workflow optimization and contributed to the development of standardized learning design, quality assurance, and operational processes.

CORE COMPETENCIES

- Instructional Design & Learning Experience Design
- eLearning Development & Digital Learning
- Curriculum & Learning Program Development
- Learning Needs & Content Analysis
- Storyboarding & Course Structure Development
- Interactive Learning Design & Assessment Development
- Articulate Rise 360 & H5P
- Learning Quality Assurance & Quality Standards
- Learning Program & Project Management
- Team Leadership & Cross-functional Coordination
- SME & Stakeholder Collaboration
- Learning Operations & Workflow Optimization
- Capability Development, Coaching & Mentoring
- Performance Evaluation & Development Planning
- Learning Technology & LMS Integration
- Technology Adoption & Implementation
- Process Improvement & Continuous Improvement
- Responsible AI Integration in Learning Design

PROFESSIONAL EXPERIENCE

Freelance Instructional Designer | Large-Scale eLearning Transformation

eLearningMinds | *Aug 2026 – Oct 2026 · Contract / Project-Based*

- Transformed approximately 781 pages of fixed-format learning materials across nine subject areas into structured, interactive Articulate Rise 360 lessons.
- Designed lesson structures, content layouts, and presentation formats to improve readability, navigation, and the overall learner experience while preserving the substantive content of the source materials.
- Applied appropriate Rise 360 components, including accordions, tabs, flashcards, labeled graphics, process blocks, timelines, and knowledge checks, according to content requirements.
- Applied client brand guidelines across course layouts, visual elements, and color usage to maintain consistency throughout the digital learning experience.
- Conducted quality checks and revisions to ensure content accuracy, visual consistency, and alignment with project requirements.

Instructional Design QA Specialist | Learning Quality & Capability

The KPI Institute (ILMS) | *Sep 2023 – Apr 2026 · Education & Research Organization · Remote*

- Developed three learning program prototypes across live online and face-to-face formats, with iterative development informing standardized course design guidelines.
- Established learning quality standards covering instructional alignment, coherence, language, formatting, and interactivity to support consistent quality across large-scale course production.
- Reviewed learning materials across approximately 200 learning programs and collaborated with instructional designers through revision cycles to address identified quality gaps.
- Developed a performance review framework using learning quality data, review standards, evaluation criteria, and rubrics to support performance evaluation, development planning, and promotion discussions for a 50-person team.
- Used quality review findings to identify individual capability gaps and inform targeted development plans.
- Established and delivered ongoing capability-building initiatives, including regular learning sessions, coaching opportunities, and targeted development activities to strengthen instructional design practices across the team.
- Developed a responsible AI usage guide and integrated AI-supported practices into course planning and design, helping instructional designers interpret and map SME materials, identify content requirements, and transform existing content across course formats more efficiently.

Project Manager, Instructional Design & Learning Operations

The KPI Institute (ILMS) | *Sep 2022 – Sep 2023 · Education & Research Organization · Remote*

- Led the day-to-day operations of a 25-person remote instructional design team, managing assignments, priorities, production capacity, and development timelines.
- Applied Agile project management practices to improve workflow efficiency, balance workloads, and support timely course delivery.
- Led the operational delivery of learning programs across 10 education and research centers, coordinating instructional designers, subject-matter experts, and quality reviewers throughout the development lifecycle.
- Reduced course production timelines by approximately 30% through workflow optimization and improved project management practices.
- Established the organization's Learning Quality Assurance function, introducing quality standards, evaluation frameworks, and review workflows that supported consistency across more than 300 learning programs.
- Implemented a centralized project tracking system to improve task visibility, ownership, progress monitoring, and cross-team handovers.
- Introduced the team's first structured onboarding and mentorship system, reducing new-hire ramp-up time by 50% and improving readiness for course development work.
- Standardized collaboration processes among instructional designers, subject-matter experts, and quality reviewers across research centers to improve coordination and consistency in course creation.
- Served as Acting Head of Instructional Design during this period, overseeing team priorities, work allocation, performance, process decisions, capability development, and escalations.
- Coordinated with senior management and represented the instructional design function in cross-functional discussions to support operational decisions and team delivery.

Instructional Designer

The KPI Institute (ILMS) | *Mar 2022 – Sep 2022 · Education & Research Organization · Remote*

- Transformed complex research outputs from subject-matter experts across 10 research centers into clear, structured, learner-centered programs.
- Analyzed source content and reorganized learning materials to improve instructional flow, learner comprehension, and content accessibility.
- Redesigned the structure of self-paced learning programs to improve content flow and learner comprehension; the resulting framework was subsequently adopted as the standard structure for self-paced programs.
- Developed standardized SME intake templates to improve the quality, completeness, and consistency of source materials provided for learning design projects.
- Developed learning materials, assessments, H5P activities, learner resources, and multimedia content for self-paced learning programs across multiple subject areas.
- Contributed to the development and prioritization of features for the in-house LMS, LERERO, drawing on hands-on experience with Articulate Rise, H5P, Kajabi, and other learning platforms.
- Collaborated with subject-matter experts and internal stakeholders to translate specialized knowledge into accessible learning content.

Lead Technology Adoption | LMS & School Partnerships

ICANDO | *Sep 2021 – Mar 2022 · Education Technology (EdTech)*

- Designed and delivered training programs for teachers and parents to support educational technology adoption across schools.
- Collaborated with the curriculum team to develop literacy programs for the company's early childhood literacy app.
- Facilitated educator training on the effective use of digital learning tools and supported users in adopting technology in educational settings.
- Developed a school adoption tracking system to monitor implementation progress and levels of technology adoption.
- Worked with school stakeholders to support the implementation and use of digital learning tools.

Program Leader & Homeroom Teacher

Sekolah Cikal | *Jun 2019 – Jun 2021 · Education*

- Led curriculum planning, instructional delivery, and student development initiatives within a learner-centered educational environment.
- Designed and adapted personalized learning experiences to address diverse student needs, interests, and areas of focus.
- Planned and facilitated learning activities aligned with curriculum goals and student development priorities.
- Monitored student learning and adapted instructional approaches to respond to individual learning needs.
- Collaborated with colleagues and other stakeholders to improve instructional quality and learner outcomes.

Academic English Facilitator

Monash University | *2018 – 2019 · Higher Education*

- Facilitated academic writing workshops to support students' academic communication and writing development.
- Developed learning resources and activities to help students strengthen academic English skills.
- Supported learners in applying academic writing conventions and communicating ideas effectively.

Academic English Facilitator

Universitas Pendidikan Indonesia | *2015 – 2017; 2019 · Higher Education*

- Designed and delivered English language programs and learning resources for university students and professional learners.
- Facilitated learning activities to develop English language proficiency and communication skills.
- Adapted instructional materials and delivery approaches to meet learner needs and program objectives.

EDUCATION

Master of Education
Monash University, Australia | 2017–2018

Bachelor of English Language & Literature — Cum Laude
Universitas Pendidikan Indonesia | 2010–2014

PROFESSIONAL DEVELOPMENT

- University Industry Partnership Programme — eLearningMinds | 2026
- Educational Technology in ELT — Iowa State University | 2022
- Digital Technology in Education — Monash University | 2021

AWARDS & SCHOLARSHIPS

- Employee of the Month — The KPI Institute | 2022
- LPDP Scholarship Awardee — Ministry of Finance Indonesia | 2017

TOOLS & TECHNICAL SKILLS

eLearning Authoring & Interactive Learning: Articulate 360 (Rise 360), H5P

Learning Platforms & LMS: Kajabi, LERERO, other LMS platforms

Project & Workflow Management: Asana

Emerging Learning Technology: AI-supported learning planning and instructional design
